Part A: Pupil premium strategy plan

Statement of intent

Our aim at Roe Green Infant School is to provide all students with the opportunity to achieve their potential. We employ strategies and interventions to remove barriers which can be caused by personal circumstances or learning gaps. We promote all students having full access to the rich extra-curricular provision on offer at Roe Green Infant School. This ensures we develop well rounded individuals who achieve their ambitions and flourish in life.

Common barriers to learning for disadvantaged pupils may include:

- less support at home
- weak language and communication skills
- lack of confidence
- more frequent behaviour difficulties
- attendance and punctuality issues

There may also be complex family situations that prevent children from flourishing. The challenges are varied and there is no “one size fits all” plan for support.

Our ultimate objectives are:

- to eliminate the attainment gap between disadvantaged and non-disadvantaged pupils at Roe Green Infant School
- for all disadvantaged pupils in school to meet or exceed nationally expected progress rates
- for all disadvantaged pupils to access to the rich extra-curricular provision on offer and be well-rounded individuals who achieve their ambitions and flourish in life

We aim to do this through:

- frequent monitoring of qualitative and quantitative data to ensure accurate and timely identification of pupils in need of support
- ensuring that teaching and learning opportunities meet the needs of all the pupils and that where pupils have specific needs that these are addressed through high quality, evidence based interventions led by appropriately trained staff
- ensuring all vulnerable learners are ready to learn through access to a breakfast club, 4 o'clock club, equipment and uniform provision
- close monitoring of attendance at extracurricular provisions along with promotion and support to increase the attendance of vulnerable learners
- ensuring that vulnerable learners have access to high quality pastoral and mental health support
- when making provision for socially disadvantaged pupils, we recognise that not all pupils who receive free school meals will be socially disadvantaged and that not all pupils who are socially disadvantaged are registered or qualify for free school meals.

We reserve the right to allocate Pupil Premium funding to support any pupil or groups of pupils the school has legitimately identified as being socially disadvantaged.

- Pupil Premium funding will be allocated following a needs analysis which will identify priority classes, groups or individuals. Limited funding and resources means that not all children receiving free school meals will be in receipt of Pupil Premium interventions at one time.

Achieving these objectives:

The range of provisions available at Roe Green Infant include but are not limited to:

- frequent monitoring and intervention of progress and needs from Faculty leads and YGLs
- literacy, phonics and numeracy support which includes in class support and small group interventions
- Reading Intervention with SLT members and support staff at least once a week
- running a breakfast club to ensure vulnerable learners are prepared for the day and a 4 o'clock club
- tracking and monitoring attendance to provide intervention and support where a need is identified
- frequent contact and support with parents regarding uniform, equipment, extra-curricular activities, trips and resources
- providing laptops to support with access to homework and remote learning

- providing priority access to counselling and mental health support
- PSHE lead to support the health and wellbeing of vulnerable children

This list is not exhaustive and will change in according to the needs of our socially disadvantaged pupils and what they require.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	To narrow the gap for those pupils not on track to achieve the expected standard at the end of KS1
2	Support KS1 children in closing any gaps in phonics.
3	In KS1 continue with phonics interventions. Liaise with YGLs to ensure that further support is given by class teachers for identified children. Carry out monthly phonic checks to monitor progress.
4	To ensure early identification of additional needs and to promote early and effective intervention programmes.
5	Children who need rich and diverse experiences- Cultural Capital
6	To ensure that there is extra support to facilitate emotional and social development in addition to academic support.
7	Improve attendance of disadvantaged pupils to national average for all pupils.
8	Support the emotional well-being and mental health of pupils.
9	Use the September baseline assessments and ongoing assessments for new arrivals, to ascertain where the children are in relation to reading, writing and maths.

10	SLT with responsibility for the curriculum to work with the year group leaders to introduce and embed teacher interventions focusing on individual gaps in learning
11	Limited parental engagement in school and learning resulting in reduced homework completion and a lack of readiness for school
12	The involvement of FSM children in extracurricular activities and school trips
